

# BUILDING MORTGAGE WELLNESS

Sometimes a little **FREE** advice can make a **BIG** difference.

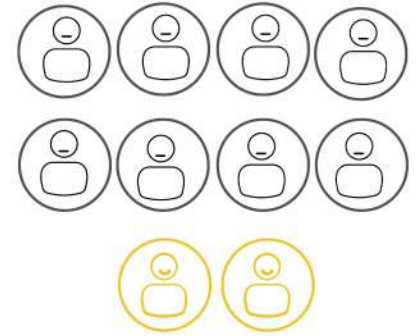

# Building Mortgage Wellness

## Are you worried about the cost of living?

The cost of living across the UK continues to rise, affecting us all. Less money can be a struggle, and it is clear that things may get worse before they get better.

A recent wellbeing study found that 8 in 10 employees report being impacted by poor financial wellbeing\* which has, in turn, impacted their mental health, with many reporting feelings of stress and anxiety.

**8 in 10 employees** are impacted by poor financial wellbeing.

## Mortgage Wellness.

At The Partnership Mortgage Group, we help you feel in control of your finances and health by focusing on what we call **Mortgage Wellness**.

## Confusion and complexity are making things worse.

For many of us, our mortgage will be the **BIGGEST** financial commitment we have. Combine this with the complexity of finding the right mortgage across c200 lenders, offering a choice of c5,000 products, all with different fees, and at a time when interest rates continue to rise, it's no wonder that an estimated **2 million borrowers** are collectively paying almost **£10 billion in EXCESS interest each year**.

Based on an average mortgage borrowing, this could mean an unnecessary cost to individuals, equivalent to **hundreds of pounds per month!**

At The Partnership Mortgage Group, we passionately believe in Mortgage Wellness and are confident that no matter what your mortgage situation, we can help.
